**practices conventions  
and**

**June 4th, 2020 - should i  
use an element or an  
attribute it is often  
confusing when to use an  
element as opposed to  
using an attribute within  
your xml schema some  
designers have the  
opinion that elements  
describe data whereas  
attributes describe the  
meta data others would  
say that attributes are  
used for small pieces of  
data such as an order id  
but really it is personal  
taste with no hard and  
fast rules'**
